Beauty

I never thought that those 'I promise you sexier lips' wonder-products really worked until I actually tried out a couple. First up was **Too Faced Lip Injection** (£19 for 40g), a paste that you leave on your lips for five minutes before rinsing it off to reveal a plumped pout. Wow! it worked!

Spurred on, I decided to get rid of any lines around my mouth, too, with **Dr Denese Perfect Pucker Line Filler For Above Upper Lip** (£24.95 for 10g). So far, so plump, but I did have to apply **Lush Honey Trap Lip Balm** (£3.95 for 10g) to calm the tingling down!
