OUR lips are the one place on our bodies that we don't mind being plump. But what if you could do with some extra oomph? Lips lose volume with age, so it's vital to keep them well moisturised and protected from the elements.

Lip Firm Peach Gloss, £10.95, from Dr Denese is a natural peach-coloured gloss designed to firm lips by boosting collagen production. The built-in SPF 15 offers sun protec-

tion, while a nourishing blend of vitamins provides additional anti-ageing benefits.

It's available from Dr Denese on 0870 1900 003 or online at www.drdenese.co.uk

We have 40 glosses to give away, so write or e-mail with your name, address and telephone number to Lip Firm Giveaway, Style, Linda Robertson, 200 Renfield Street, Glasgow, G2 3QB.
