TRIED & TESTED

FORGET plastic surgery and opt for a revolutionary new eye cream from the Dr Denese range.

It does exactly what it says on the packaging and tightens the appearance of wrinkles within minutes of application.

The secret is Gamma Amino Butyric Acid (GABA), a naturally occurring muscle relaxant, which lowers muscle

cell activity.

Instant Wrinkle Press produces an immediate "freezing" effect on the skin and also provides anti-ageing benefits.

You may think it's a bit pricey at £44.95 for 15ml — but a little goes a long way and definitely gets results.

The cream is available from Dr Denese on: 0870 1900 003 or online at **www.drdenese.co.uk**
