## lifelines

### Added clout for your pout

TO GET the perfect pout for Valentine's Day, try the Perfect Pucker from Dr Denese. This dual action, needle-free filler, is designed to provide both immediate and long-term reduction in the appearance of fine lines and wrinkles above and around the lips. Created by Dr Denese, a specialist in anti-ageing medicine and skin care, the marine collagen in Perfect Pucker has a 'plumping effect', filling in fine lines for an apparently flawless finish. Apply after foundation for irresistibly kissable lips. The Perfect Pucker

costs £24.95 and is available from Dr Denese on 0870 1900 003 or at [www.drdenese.co.uk](http://www.drdenese.co.uk)
