## Get glowing for summer

The skin on your face gets a real beating during the winter months, what with cold weather and constant central heating. Get yours back on top form for summer with the ERI Bring Skin Back To Life Kit, £59.99 from Dr Denese (0870 190 0003, [www.drdenese.co.uk](http://www.drdenese.co.uk)) – the ultimate first-aid kit for tired skin. It promises to have you looking glowing in eight weeks. It works in three steps: exfoliation; rejuvenation, using a serum to hydrate skin; and illumination, with Vitamin C Radiance Cream.
