Plump up your pout and prepare to glow with this season's glimmering Art Deco shades

words: bonnie wilson

How could George say goodbye to these lips?

PLUMP BUMPS

Since *BB*'s Pete Burns showed just how wrong lip enhancement surgery can go (eww!), sales of non-cosmetic plumpers have rocketed. Lisa Snowdon's fav, **Perfect Pucker from Dr Denese** is a dual-action, needle-free filler, designed to provide both an immediate and long-term reduction in the appearance of fine lines and wrinkles above and around the lips.

With soluble marine collagen for an immediate 'plumping' effect, the Perfect Pucker literally 'fills in' fine lines, but it also contains a pro-peptide formula that helps to stimulate growth of collagen for a longer-lasting effect too. £24.95 for a two-month supply, www.drdenese.co.uk, 0870 1900 003

For non-surgical bust enhancement, creams are less effective but they do exist. **medik8's Firma Derma** promises to tone up titties by increasing elasticity and hydration. Combine it with a diet featuring two litres of water every day for the best effect. £29, www.medik8.com, 0845 673 2222
