BEAUTY

Pucker up and kiss lines goodbye

ONE OF THE FIRST DOCTORS TO specialise in anti-ageing medicine in America, Dr Adrienne Denese has been helping New Yorkers to keep wrinkles at bay since she opened the Manhattan Anti-Ageing Clinic in 1997. She also has an

eponymous range of youth-preserving products, the newest of which has just been launched. Tackling those fine lines which creep in around the mouth, Perfect Pucker not only "fills in" wrinkles, it contains

amino acid peptides which stimulate the growth of collagen from the inside.

■ *Perfect Pucker costs £24.95 for a 10g tube and is available from Dr Denese, tel: 0870 190 0003 or visit www.drdenese.co.uk*
