BEAUTY SPOT

■ If you watched those impossibly glamorous film stars at the Baftas and felt just a twinge of jealousy for their perfectly groomed looks, Lancôme might be able to help. As official beauty supplier for the awards, Lancôme carries out makeovers and facials for the nominees and celebrities throughout the awards and aftershow, but this year the brand is quite prepared to bring a little red carpet glamour to the public. The Lancôme Bafta Road Show will allow customers to get the star treatment from an expert make-up artist, and have even created the Bafta Collection of glamorous shades of make-up to celebrate. Dates are: Frasers, Glasgow, until February 21; Debenhams, Glasgow, March 19-31; John Lewis, Glasgow, February 26-March 3; Jenners, Edinburgh, February 23-March 3. Book early to avoid disappointment.

■ If that's not quite enough pampering then brace yourself, because we have news for you. Reports of the opening of

a new Chanel Facial Room in Frasers, Glasgow, were enough to draw disbelieving gasps from even the most

unenthusiastic of the HotStyle team. The room will provide two facials – The Chanel Facial (£60 – 1hr 15mins) and The Express Chanel Facial (£30 – 30 mins). Both feature the ultimate in luxurious, 21st century skincare. Book appointments for a Chanel Facial at Frasers on 0141 248 6268.

■ So, be honest, just how many Valentine snogs did you receive yesterday? If the

answer is disappointing, or just plain embarrassing, then perhaps to rectify the problem you simply need to make your lips look a little more inviting? MegaLips by Dr Denese gives you bigger, beautiful lips instantly. It's a unique dual-action lip-plumping cream, in which the active ingredient, a derivative of the chilli family, stimulates blood flow to the lips, helping to redefine lip border and giving fuller lips not only within 10-15 minutes but with long term results too. £17.95, Call 0870 1900 003 or visit www.drdenese.co.uk
