FACE SAVER

IT'S that time of year when your face needs a thirst-quenching winter boost, to ward off dehydration and protect against the elements.

The secret of HydroShield Ultra Moisturising Serum from the Dr Denese range is that it contains a perfect replica of the skin's own lipids.

These are important as they prevent drying, but their levels decline with age.

However the lipids contained in HydroShield mesh into the skin's structure for optimum absorption and hydration.

The inclusion of vitamins A and D also provide anti-ageing benefits.

The Serum costs £69.95 for 30ml and is available from Dr Denese on 0870 1900003 or online at www.drdenese.co.uk.
